

A K M TASFIQ ABEDIN

INDUSTRIAL ENGINEERING | OPERATIONAL EXCELLENCE | DIGITAL TRANSFORMATION

PROFESSIONAL SUMMARY

Industrial engineering and operational excellence professional with 8+ years of progressive experience in apparel manufacturing, advancing from Executive to Deputy Manager at SQUARE Fashions Limited. Combines Lean manufacturing, PMTS, capacity planning, workforce optimization, data analytics, and application development to improve productivity, cost, material flow, and decision speed. Known for translating factory challenges into measurable, scalable process and digital solutions.

PROFESSIONAL EXPERIENCE

SQUARE FASHIONS LIMITED

Deputy Manager, Industrial Engineering | Feb 2020 - Present

- Led workload balancing and process redesign initiatives that achieved 13.47% manpower optimization across multiple departments.
- Designed and implemented an integrated material-flow system between sequential departments, reducing end-line quality inspector requirements by 71% and contributing directly to profitability.
- Applied sewing-level micromotion analysis and PMTS to eliminate non-value-added work and reduce process SMV by 19.83%.
- Converted 37 manual processes into semi-automated workflows, optimizing manpower by 36% and improving SMV by 7%.
- Digitalized IE workflows through an Android application and MIS platform for real-time data integration, alerts, target setting, efficiency analysis, skill matrices, line balancing, hourly production, trend analysis, and digital pre-production reporting; reduced paper consumption by 90%.
- Developed a cross-platform production tracking solution that shortened reaction time by 47% and improved factory efficiency by 2.06%.
- Introduced real-time material consumption analysis to standardize requirements by material characteristics, reducing waste by 17.04%.
- Created a cross-functional training program that developed multi-skilled operators and achieved a multi-skill index of 2.86.
- Developed a machine-learning model with an 83% confidence level to forecast manpower demand from planned production volume.
- Re-engineered the production layout to balance workloads and improve operator efficiency.

Operations & Planning Coordinator | Aug 2019 - Jan 2020

- Replaced first-come, first-served scheduling with earliest-due-date sequencing, reducing annual air freight by 0.79%.
- Integrated SAP and FastReact through an API portal, streamlining new-order allocation and execution while reducing response times.

Executive, Industrial Engineering | Jul 2018 - Jul 2019

- Introduced process engineering and micromotion analysis to identify and remove non-value-added activities, reducing product minute value by 3.39%.
- Developed an advanced 5S standardization and audit system that strengthened material management and reduced organizational waste.

CORE COMPETENCIES

- Industrial Engineering: Work Study, Method Engineering, PMTS, SMV Optimization, Micromotion Analysis, Capacity Planning, Line Balancing, Workload Balancing
- Operational Excellence: Lean Manufacturing, Process Redesign, Manpower Optimization, Material Flow, 5S, Value Stream Mapping, TPM, SMED, OEE
- Digital & Analytics: MIS Dashboards, Real-Time Performance Monitoring, Forecasting.

TECHNICAL SKILLS

- Data & BI: Python, SQL, Microsoft Power BI, Microsoft Excel, Power Query, DAX, Dashboard Design, Minitab
- Application & Web: React, React Native, JavaScript, HTML, CSS, C
- Engineering Software: SolidWorks, Microsoft Office
- Analytical Methods: Descriptive and Inferential Statistics, Process Capability, Yield, PPM, DPMO, Sigma Level, Machine Learning, Database Systems

EDUCATION

Postgraduate Diploma in Supply Chain Management

International Supply Chain Education Alliance (ISCEA, USA) | 2019 - 2020 | Score: 87%

Bachelor of Science in Industrial and Production Engineering

Ahsanullah University of Science and Technology | 2013 - 2017 | CGPA: 3.545/4.00

Higher Secondary Certificate

National Ideal College | 2012 | GPA: 5.00/5.00

Secondary School Certificate

Motijheel Government Boys High School | 2010 | GPA: 5.00/5.00

CERTIFICATIONS & ADDITIONAL ACHIEVEMENT

- Six Sigma Yellow Belt - Technical University of Munich (TUM), Germany.
- Microsoft Excel: Beginner to Advanced - Udemy; training included Power Query, DAX, dashboards, functional block building, and statistical analysis.
- Data science and Neuro-Linguistic Programming - Udemy
- ISO 9001:2015 Lead Auditor training certification - Intertek
- Lean Manufacturing System - NPO, BEF & BJTI
- Contributed for six months to Project XIX, a programming education initiative, and received recognition for best project development.
